

is necessary to recognize and value the contributions of both individuals to patient care. Expressing appreciation with a straightforward thank-you message or gesture of gratitude can significantly contribute to establishing a strong and positive relationship. Demonstrate mutual respect for one another's work-life balance and foster an environment that promotes support, reduces burnout, and allows both individuals to

prioritize their well-being beyond work.

**Declaration of patient consent:** The authors certify that they have obtained all appropriate patient consent forms. In the form, the patient has given the consent for his/ her images and other clinical information to be reported in the journal. The patient understands that his/ her names and initials will not be published and due efforts will be made to conceal their identity, but anonymity cannot be guaranteed.

**Conflict of interest:** Nil **Source of support:** None
